

Virtual Appointment

Virtual visits (using [RingCentral Meetings](#) and **tele-appointments** have become a valuable way to monitor eruption, select treatment and retention while maintaining social distancing.

In preparation for a virtual visit, [6 photos](#) are helpful to give us a more accurate idea of the current stage of your tooth movement. Once we receive these, we can schedule a virtual and discuss goals and future recommendations.

CV-19[FAQs](#) on how CV-19 office closure affects my treatment
